Introduction

The Bacup 2040 Vision has been developed by local people – including proactive community organisations, businesses and partners all operating within the Bacup Town centre boundary¹ - in order to understand issues and build ownership of the future. There is a recognised need to intervene to both overcome challenges and make better use of the town’s positive features.

The Bacup 2040 Vision focuses on Bacup’s potential and how we can build on its current strengths and achievements in the recent Bacup Townscape Heritage Initiative Project; whilst addressing challenges to achieve a sustainable future.

Consultation approaches have included online and face to face surveys as well as attendance at various community events to further expand some of the ideas and take on board a broad range of opinions and priorities.

We now wish to share the Bacup 2040 Vision based on your ideas and engagement.

About Bacup

Bacup is the best-preserved cotton mill town in England¹. It’s located to the East of Rossendale in the centre of the South Pennines and is nestled amongst natural landscape, with the River Irwell contributing to its settlement. It is now a desirable location for commuters into Manchester, Preston and further afield. Recognised for its historic character and special architecture, manufacturing prowess, stunning location and traditional past-times, which play a huge part in the charm of the town today, it now attracts creative industries, artists, countryside-seekers and innovative manufacturers.

There are many opportunities for Bacup to cherish and enhance its historic legacy and build on its distinctive character, creating a evolutionary place for all. However, there are also a series of challenges to be overcome if Bacup’s town centre is to secure a sustainable future.

Our vision sets out our ideas to transform Bacup for future generations.
